

Exhibitor List

Allectra Ltd

Leading manufacturer and supplier of a full range of High Vacuum and UHV components worldwide. Standard range includes Sub-D feedthroughs, Co-axial feedthroughs, Viewports and Hardware. Talk to us about custom solutions. Facilities with scientific and engineering capabilities in both the UK and Germany.

V09

Hiden Analytical

For more than 30 years Hiden Analytical has been a global leader in the design and manufacture of scientific instruments for research, development and production applications. In vacuum, gas, surface and plasma processes our quadrupole mass spectrometers have gained worldwide recognition for their precision and outstanding performance.

V6

Interface Precision Engineering

IPEL is a specialist Sub contract precision manufacturer based in East Sussex. Specialising in the highest quality Machined, Fabricated and Pressed components / assemblies in a whole raft of materials from Aluminium, Steels, Refractories (Niobium, Tantalum, Molybdenum, Titanium etc.), Copper, Brass, Plastics (PTFE, Nylon Acetyl etc.) and ceramics.

V4

ITL Vacuum

ITL Vacuum are specialist manufacturers and suppliers of standard and bespoke vacuum products. Within our UK manufacturing site, we offer a complete range of hardware, custom fabrications, viewports, glass to metal tubulations and gauges. We also supply vacuum valves, motion and positioning devices, electrical feedthroughs, materials and evaporations sources.

V1

Kurt J Lesker Co Ltd

Global leader in the manufacture and design of vacuum technology products. From simple components to intricate vacuum chambers and automated deposition systems, we work with you to provide quality solutions for your vacuum requirements.

V7

Oerlikon Leybold Vacuum UK

Worldwide company trading for over 160 years, offering customers the largest sales and after sales network in the industry. Manufacturing range includes fore & high vacuum pumps, vacuum gauges, leak detecting instruments, flanges, fittings and valves as well complete vacuum solutions. Full UK service support & vacuum training for customers.

V5

Omni Technologies

Omni-Technologies represents multiple equipment suppliers offering a broad range of technologies for lithography, rapid thermal processing, thermal evaporation, chemical & physical vapour deposition & RF & microwave plasma etch, ashing and plasma treatment for the device packaging process.

V2

Pfeiffer Vacuum

Pfeiffer Vacuum is one of the world's leading providers of vacuum solutions. We provide the perfect vacuum solution for your applications. Please visit us at www.pfeiffer-vacuum.com.

V10

Scanwel

Manufacture, design and develop vacuum components, fabrications, chambers and bespoke systems/ solutions. Also on display distributed products, such as ion pumps, heating tapes, motion & electrical feedthroughs, RGAs and valves.

V8

SS Scientific Ltd

SS Scientific provides a range of precision vacuum equipment for scientific, research and industrial applications that include:- Manipulators, Sample Transfer, e-Guns from 3 to 30kW, a full range of Bench Top/Portable Pumping Stations and Vacuum Bake Solutions. New Products Include: Ionized Jet Deposition, Wobble Stick, Port Aligners and LED Chamber Lighting. We can provide a competitive Custom Solution that is not available from catalogue companies.
