

VacuumROADSHOW

14th June 2017 · University of Strathclyde

Exhibitor List

GNB KL Group

S4

Customization and Innovations - with engineering performed in cutting edge 3D CAD modeling Solidworks, in-house large and small scale machines, AWS-certified welder, and fully equipped assembly / test facility GNB is uniquely equipped and positioned for solutions that keep us at a “cut-above” our competitor.

Hiden Analytical

S12

For more than 35 years Hiden Analytical has been a global leader in the design and manufacture of scientific instruments for research, development and production applications. In vacuum, gas, surface and plasma processes our quadrupole mass spectrometers have gained worldwide recognition for their precision and outstanding performance.

INFICON GmbH

S26

INFICON is a leading provider of innovative instrumentation, critical sensor technologies, and advanced process control software that enhance productivity and quality in sophisticated industrial vacuum processes.

Interface Group

S27

IPEL is a specialist Sub contract precision manufacturer based in East Sussex. Specialising in the highest quality Machined, Fabricated and Pressed components / assemblies in a whole raft of materials from Aluminium, Steels, Refractories (Niobium, Tantalum, Molybdenum, Titanium etc.), Copper, Brass, Plastics (PTFE, Nylon Acetyl etc.) and ceramics.

Kurt J Lesker Co Ltd

S31

Global leader in the manufacture and design of vacuum technology products. From simple components to intricate vacuum chambers and automated deposition systems, we work with you to provide quality solutions for your vacuum requirements.

Leybold UK Ltd

S20

Worldwide company trading for over 160 years, offering customers the largest sales and after sales network in the industry. Manufacturing range includes fore & high vacuum pumps, vacuum gauges, leak detecting instruments, flanges, fittings and valves as well complete vacuum solutions. Full UK service support & vacuum training for customers.

VacuumROADSHOW

Scanwel

S7

Manufacture, design and develop vacuum components, fabrications, chambers and bespoke systems/ solutions. Also on display distributed products, such as ion pumps, heating tapes, motion & electrical feedthroughs, RGAs and valves.

SS Scientific Ltd

S3

SS Scientific manufacture and distribute precision products worldwide. Offering an extensive range of products, services and bespoke solutions dedicated to all aspects of Vacuum Science, including Filaments, Port Aligners, Ionised Jet Deposition, LED Chamber Lighting and Bespoke Vacuum Systems. All products are manufactured with the support of our strong application knowledge, experience and expertise to ensure high product quality.
